

Gay Games IV AQUATICS

Results

Congratulations to all participants in the Gay Games IV Swimming Competition! With 1,073 swimmers, including 226 women and 847 men, this masters meet was 1994's third largest, behind only the World Championships in Montreal and the U.S. Short Course Yards Championships in Tempe, Arizona.

This was the first Gay Games to include all events among internationally-recognized strokes and distances. Competitors were allowed to swim six individual events and ten relays. The fastest swimmers set 16 world, 31 U.S. and 3 British short course meters records (for unusual reasons, two of the world records did not set national marks). The meet was sanctioned by the Metropolitan LMSC, for USMS, Inc., Sanction No. 064-94-30.

It has been decades since New York area officials have been called upon to run a meet of this size, and of course this was the first time a meet has been held here in conjunction with a multi-sport event such as the Gay Games. We are grateful to both these meet officials and the Asphalt Green AquaCenter staff for handling such an overwhelming task with spirit, diligence and no small amount of humor.

These results list those Gay Games registrants who actually swam (there were more than 100 who for various reasons did not compete). Since the open water swim was cancelled twice, obviously there are no results to report. Also not listed are the exhibition races at Lehman College by Jason Bucklin and Jason Szekeres, who were not eligible to compete in the master's meet because they were under 19.

Questions regarding these results, including requests for paperwork to verify other national records, should be directed to Paul Fortoul at (212) . Comments and suggestions for future Gay Games swimming competitions should be directed to Charles Carson at (212) 226-1573.
